

# Intelligent Fleet Management

# INTELLIGENT FLEET MANAGEMENT

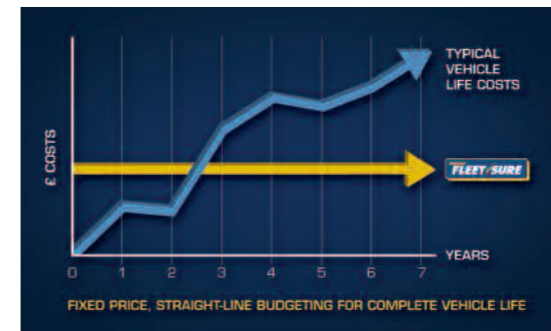

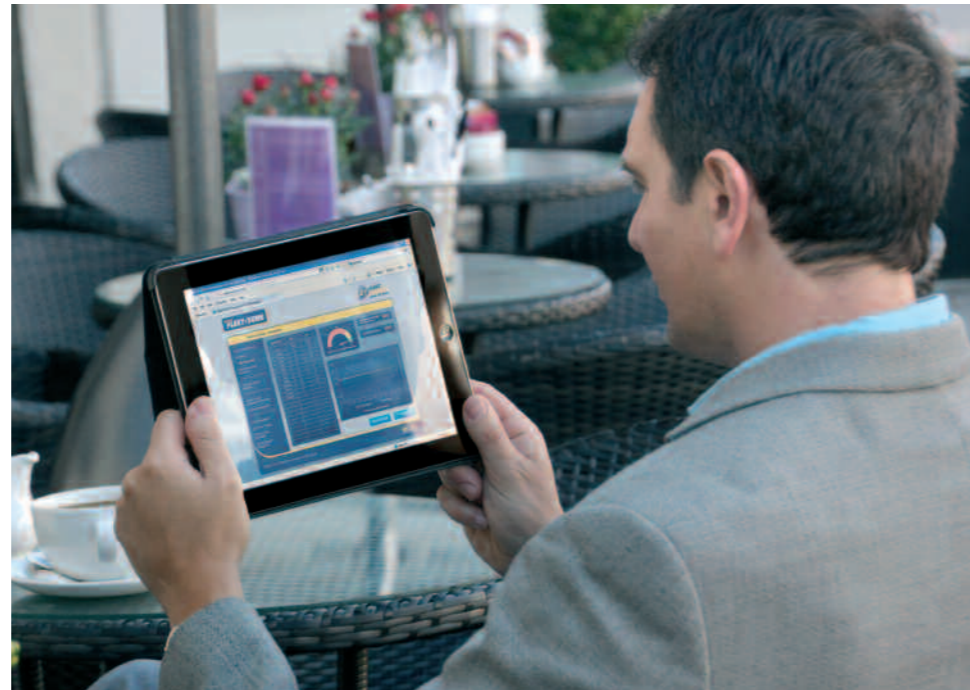

When Euroway created FleetSure, it developed the next generation of intelligent fleet management for commercial vehicle operators. Fleet Management has been around for many years, however, with the new FleetSure programme, Euroway has raised the bar even higher, to a brand-new level of functional capabilities.

Using a telematics platform in every fleet management contract, FleetSure is the smart way for operators to achieve the ultimate in fleet management performance.

FleetSure is not simply fleet management with telematics added. Euroway has devised FleetSure based on a comprehensive telematics protocol, to provide its customers with the most complete choice of valuable fleet information available at the touch of a button, whether in the office or on the move.

## THE CHOICE IS YOURS

Each and every transport fleet has differing requirements for its fleet management operations and at Euroway we have recognised this by offering a choice of contract types that combine flexibility with practicality. That's why FleetSure is Intelligent Fleet Management.

## WITH FLEETSURE YOU CAN CHOOSE FROM FOUR CONTRACT TYPES:

- ✓ **PAY-AS-YOU-GO** 'Pay-As-You-Go' with nominal management charge (depending upon requirements).
- ✓ **FIXED PRICE** Fixed price for all scheduled events and 'Pay-As-You-Go' for non-scheduled events.
- ✓ **ALL-INCLUSIVE FIXED PRICE** All-inclusive fixed price for all scheduled and non-scheduled events.
- ✓ **FLEXI-PRICE** Flexi-price for scheduled and non-scheduled events.

## AND THE BENEFITS ARE YOURS TOO

With a FleetSure contract you get no-nonsense, straight-line fleet budgeting for the duration of the contract, with NO hidden extras or surprises. This sleep-easy cover protects your 'O' licence 24/7, ensuring your fleet is legally compliant at all times and at a constant and known cost.

You also benefit from the latest state-of-the-art technology for forward thinking fleets that prefer to concentrate on their core business activity rather than the complexity of its fleet maintenance/management programme.

And with Euroway's impressive new 'smartFleet' App on your Smart phone and Tablet, you even have the latest & most exciting way of monitoring your fleet real-time, anytime, anywhere.

With every FleetSure contract, customers benefit from Euroway's expert guidance and support 24/7/365, which provides improved utilisation and fleet uptime, together with a dramatic reduction in your administration time and cost.

# TELEMATICS BASED FLEET MANAGEMENT

When considering a new fleet management provider, it is essential to clearly understand what is being offered. Euroway's FleetSure programme is probably the most proactive approach to fleet management ever offered by any HGV commercial Fleet Management company.

Telematics is at the heart of every FleetSure contract, as Euroway has partnered up with leading specialists MiX Telematics to provide state-of-the-art fleet management that is in the heart of the product and available for operators of vans, trucks, tractor units and trailers.

## VALUE ADDED FLEETSURE FEATURES, ASK YOURSELF WHETHER YOUR CURRENT FLEET MANAGEMENT PROVIDER INCLUDES:

- FleetSure Available for Van, Truck, Tractor and Trailers.
- Online Web-portal access (password protected) giving full real time Fleet visibility.
- Smart phone and Tablet App giving real-time Fleet visibility.
- Guaranteed Fuel savings if Driver MI package taken.
- Dedicated 0844, 24/7/365 Fleet Control Centre.
- Over 2,000 independent vendors all of which sign up to annual Euroway SLA review.
- Not necessarily tied to regional O.E.M. designated Dealer.
- Covers any make, marque and age of equipment.
- Can extend after primary contract expires into a secondary contract.
- Includes all Ancillary components including Refrigeration Unit, Tail Lift, Crane, PTO etc.
- Allow and advise on vehicle movement around the country to maximise contractual mileage requirements.
- Nationally agreed Labour and Parts rates available for all PAYG contracts.
- Consolidated invoicing significantly reducing client Administration burden.

FleetSure is available at 3 levels of functionality, depending on your fleet management requirements. It's the smart choice for effective fleet management.

– a proven suite of fleet management services providing all the benefits of a full contract hire agreement but with ownership of the assets remaining with the customer providing the client with complete Fleet Cost and Compliance peace of mind.

– in addition to FleetSure Prime, this suite of services provide the client with advanced Driver Management Information to enhance your fleet performance and profitability.

- the ultimate fleet management programme with additional comprehensive Vehicle Management Information combined with a full Accident Management cover.

**Not everyone offers comprehensive Fleet Management cover. Why not compare the FleetSure checklist from Euroway with your existing cover.**

# NEXT GENERATION FLEET MANAGEMENT

From a basic maintenance management contract through to a comprehensive fleet management offering, customers benefit from Euroway's expertise in the commercial vehicle maintenance and buying power for parts and labour nationwide.

With over 2000 fully approved and authorised repair agents throughout the UK and Europe (not necessarily tied to any OEM dealer network), FleetSure provides a prompt response to vehicle breakdowns, 24 hours a day, 7 days a week, through a Freephone number and dedicated Fleet Control Centre, where our own staff ensure vehicles are back on the road with a minimum of downtime.

Euroway's bespoke fleet management system tracks and records every asset under contract, producing comprehensive service schedules in line with manufacturers and legislative requirements, as well as real-time daily/weekly/monthly management KPI reports. Euroway's online web-portal access gives full real-time visibility 24/7.

This information can also be accessed using the latest Smart phone and Tablet technology, enabling you to view your fleet performance, wherever you are.

In addition to all the features within FleetSure Prime Euroway has taken its fleet management to a higher level with the advanced Driver Management Information available through our telematics based fleet management programme. This provides for greater operating efficiencies and proven improvements in vehicle performance and 'on the road' fuel savings and economy.

Significant operational cost savings and improved fleet safety are possible from the comprehensive vehicle management information in FleetSure Pro, with full visibility at your desk or on the move 24/7.

## ACCIDENT MANAGEMENT

Accident Management cover is an additional much needed helping hand too, through our partnership with Sopp & Sopp, the UK's largest specialist commercial vehicle accident management company. This dedicated service ensures that your vehicle is back on the road,

**EUROWAY FLEET SURE**

**COMPLIMENTARY SERVICES**

Euroway's fleet management is completed with complimentary services across the complete FleetSure range:

- ✓ PCN MANAGEMENT
- ✓ DRIVING LICENCE VERIFICATION AND MANAGEMENT
- ✓ CPC DRIVER TRAINING
- ✓ VEHICLE DISPOSAL MANAGEMENT

earning its living once again, with the minimum of inconvenience to you and your business.

With our accident management service, we get you back on the road as quickly and smoothly as possible. All our repairs come with a three-year warranty and our web-based management information enables you to see status/costs of the repair at all times.
